

Amendments to the Claims

---

Claim 1. (currently amended) A towel warmer and dryer cabinet, comprising

- a) a hollow cabinet having an open front side and laterally spaced side walls,
- b) a pair of towel rod support [frame having laterally spaced frame] members

one positioned adjacent each of the lateral side walls of the cabinet for supporting

5 therebetween a towel support rod adjacent <sup>or</sup> the upper end of the open front side of said cabinet,

DI c) at least one towel support rod extending between and supported by said [frame] towel rod support members adjacent the upper end of the open front side of said cabinet for hanging a towel vertically downward from said rod toward the bottom of said

10 cabinet, and

d) securing means [on the cabinet side walls for mounting said support frame for] integrally connecting said cabinet and said towel and support members together and configured to enable movement of said at least one towel support rod through said open front side of the cabinet between a position retracted within the cabinet and a position extended

15 forwardly of [and adjacent the upper end of] said open front end of the cabinet while maintaining the at least one towel support rod adjacent the upper end of the cabinet.

**Serial No. 10/016,047**  
**Group Art Unit: 3637**

Claim 2. (cancelled)

Claim 3. (currently amended) The towel warmer and dryer cabinet of claim 1 wherein the [support frame] securing means comprises pivot means interengaging the support [frame] members and cabinet adjacent the bottom end of the support [frame] members for moving said at least one towel support rod arcuately through said open front side of the

5 cabinet between said retracted and extended positions.

4r

Claim 4. (currently <sup>withdrawn</sup> ~~amended~~) The towel warmer and dryer cabinet of claim 1 wherein the [support frame] securing means comprises track means in the cabinet slidably supporting the towel rod support members for rectilinear movement of said at least one towel support rod through the open front side of the cabinet between said retracted and

5 extended positions.

4r

Claim 5. (<sup>currently withdrawn</sup> ~~previously added~~) The towel warmer and dryer cabinet of claim 1 wherein the cabinet includes back and top members extending between said spaced side walls, a lavatory bowl supported by said top member, and drain means extending from the lavatory bowl downwardly through the cabinet adjacent said back member.

Claim 6. (currently amended) The towel warmer and dryer cabinet of claim 1 including a front panel supported pivotally on the upper end of the towel rod support [frame] members for movement of said front panel between a retracted position substantially closing the open front side of said cabinet in the retracted position of said towel rod support frame

**Serial No. 10/016,047**  
**Group Art Unit: 3637**

- 5 and an extended position hanging downwardly and forwardly of said open front side of said cabinet in the extended position of said towel rod support [frame] members.

Claim 7. (currently amended) The towel warmer and dryer cabinet of claim 3 including a front panel supported pivotally on the upper end of the towel rod support [frame] members for movement of said front panel between a retracted position substantially closing the open front side of said cabinet in the retracted position of said towel rod support frame

- 5 and an extended position hanging downwardly and forwardly of said open front side of said cabinet in the extended position of said towel rod support frame.

Claim 8. (previously added) The towel warmer and dryer cabinet of claim 1 wherein the cabinet bottom is open and a source of heated air current is mounted in the cabinet adjacent to and registering with said open bottom.

Claim 9. (previously added) The towel warmer of claim 1 wherein movement of the said at least one towel support rod is arcuate relative to the frame members.

Claim 10. <sup>currently withdrawn</sup> (previously added) The towel warmer of claim 1 wherein movement of the said at least one towel support rod is rectilinear relative to the frame members.
